## Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by Penny's Drug Store, Stanford, Lyne Bros., Crab Orchard.

Not long ago a visiting minister in Philadelphia, ignorant of the provisions in the Girard will that "no ecclesiastical, missionary or minister of any sect shall ever be admitted within the premises of the college," presented himself at the gate of Girard College and started to enter. "Are you a minister, sir?" asked the gatekeeper. "Yes," was the unsuspecting reply. "Then you can't enter here," said the gatekeeper, tersely giving the reason. "The devil you say," came from the astonished clergyman. The gatekeeper hesitated for a moment, but after pondering the minister's remark he is said to have replied: "Oh, you're all right. When you talk that way you can't be very strong in the preaching line."

## Well Worth Trying.

W. H. Brown, the popular pension attorney, of Pittsfield, Vt., says: "Next to a pension, the best thing to get is Dr. King's New Life Pills." He writes: "They keep my family in splendid health." Rev. J. L. Weeks, of Ridgway, Ill., dropped in on us very unexpectedly Sunday afternoon and preached at the Baptist church that night. Bro. Weeks was pastor of the church here some 16 years ago and everybody was glad to see him. He has grown a little old since he left here but he preaches with the same vigor that characterized him in his younger days.

The question of taxing the patrons of this school district to the amount of 25 cents on the \$100 worth of taxable property, and \$1 poll tax for the purpose of extending the public school term, will be submitted to the voters of the district at the trustees' election on the first Saturday in October. The usual "klick" has been registered and a full vote will be polled. Some of the heaviest taxpayers favor the proposition and the result will be watched with interest.

Mrs. Green Mains, of Owsley county, is visiting her brother, W. P. Thomas, and sister, Mrs. W. G. Miller, J. P. Cash returned Saturday from Lincoln county, where he had been advertising the Duffee Liquid Soap. Rev. R. H. ## Chamberlain's Cough Remedy Acts on Nature's Plan.

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price, 25c. Large size, 50c. For sale by Stanford Drug Co.

In many European countries alcohol is fast taking the place of the petroleum products for both heating and lighting, as well as motive power on the farm. Alcohol is non-explosive, is as cheap as kerosene or gasoline and supplies more satisfactory power and light. In lighting, for instance, the alcohol lamp gives a steady light, is white and brilliant and yet soft, has no odor and does not become dirty as kerosene lamps do. Alcohol motors are both stationary and portable and give the best of satisfaction. With the internal revenue tax off of alcohol in this country we also may expect such progress.

"I am not going to Mexico to stay," he said. "I want to build a great house on Mount Carmel to entertain the children of God. I feel that I must build it for the coming of the King. He will come soon. I shall come back and come into my own. My attorneys have appealed my case and I feel that the Lord will not desert me. I believe that God will send his son to me when the time of the millennium comes," said John Alexander Dowie just before bidding goodbye to Zion City and her people.

Gov. Luke P. Blackburn, whose reputation as a physician and philanthropist is too well known to need further comment, once said "Concentrated Crab Orchard Water is the best aperient known to the medical profession and will cure more diseases than any one remedy I have ever used." Get a bottle of White's Diamond Brand Crab Orchard Water. For sale by all druggists and country stores.

Mr. Rockefeller may have returned from abroad a better American, but those several thousand indictments would indicate that he needed improvement. —Atlanta Journal.

## The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Organized labor prevails in Danville, and during the past few months those connected with it have been quietly landing themselves together for mutual protection, so they claim. So quietly has this been going on that no outsider in the city was aware of its existence until one member, who was quite enthusiastic over the success of the new organization, gave the scheme away, but not in time to prevent trouble among the housewives of Danville. —Advocate.

A special from Jellico says that, at the coroner's inquest in the Tennessee town, testimony was heard that about 15 men were standing near the car of dynamite which exploded last Friday morning, and all are supposed to have been killed. None of them are known. A country woman visited the place searching for five children to whom she gave permission to go to Jellico Friday and attend a circus. It is feared that they were also killed by the explosion and that the full list of dead will never be known. The body of an unknown girl, probably 20 years old, was found in a field a half mile from the scene of the explosion. It was perfectly nude, but not mangled. Mayors Baird and Stewart, of the two Jellicos, have issued a general appeal for aid. The coroner's jury in Jellico, (Ky.) has finished its investigation and rendered a verdict that the explosion was due to the criminal negligence of either the Louisville & Nashville or Southern railways, or both, or their employees.

## Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Penny's Drug Store.

Tourists of all nations spend every year something like \$65,000,000, or nearly \$200,000 a day, in Italy. Considering the poverty of the country, this crop, which is produced by the national ruins, is of far more value than any cereal or manufacture. Every new house or building is a nail in the national coffin.

THREE of Somerset's 19 licensed saloons have gone to the wall lately, forced to close for benefit of creditors. - Somerset Journal. The millenium must be close at hand when a saloon in Pulaski's capital is compelled to shut up shop on account of lack of patronage.

THE "Race for a Widow" was a disappointment to our theater goers, who had expected something grand, as the admission price had been advanced. The play is not an interesting one nor was it overly well presented. In short, the company, headed by Pete Baker, is cleverer off than on the stage.

THE Harrodsburg Herald hands out this following good one: "It is said that the best way to preserve apples in the winter is to wrap them in newspapers so as to exclude the air. The exception is made, however, that the newspaper must be one on which the subscription has been paid, else the dampness resulting from what is 'dew' may result in spoiling the fruit."

It is rumored that the Q. & C. is preparing to spend about \$1,000,000 to build a track around the famous King's Mountain tunnel in the South End of this county. This tunnel is 3,948 feet in length, and cost nearly three quarters of a million dollars. While it has not been given out definitely that this scheme is a go, yet it has come from high authority, and it is probably the road will undertake this move in addition to the double-tracking that is now going on.

To show how clever some people are and how willing they are to say good things of the dead, we will mention a little experience we had the other day. A good lady came in with an obituary of a hundred lines or more and left it for publication. Some hours later when the printer was knee deep in the "tribute to the dead" the lady came again to inform us that owing to the fact that the "deceased" wasn't dead we had better withhold the article until a more appropriate season.

HELM. - Having heard that Harvey Helm, the Tall Sycamore of the Hanging Fork, had been nominated for Congress by the democrats of the Eighth Kentucky district, republicans in Washington who hail from that region are discussing the probable nominee of their party. They have had grape vine dispatches indicating that one of two gentlemen will be given the honor, however empty or full it may prove to be. The most prominently mentioned is F. P. James, the well-known Harrodsburg business man, who has been a leading republican for years. It is understood, however, that he is a little shy about getting into the game. The other probability is Tom Ballard, the Lawrenceburg druggist, who is the district committeeman of his party. Tom is also a stalwart republican, and while he might not ornament the raging stump, never having trained as a spell-binder, he would be right there in a baby kissing campaign, or if it is to be a still hunt he might borrow a pair of Godfrey Hunter's gum shoes. Kentucky democrats here who know Helm are confident that he will be elected by a handsome majority, and are sure that he will make a thoroughly acceptable representative. He is a lawyer of ability, a good speaker and an all-round good man. - Washington dispatch to Louisville Times.

THE James Walker Givens farm of 134 acres, near McKinney, will be sold at auction Oct. 12. Also a lot of stock, crops and household furniture. See advertisement Tuesday.

THE report current yesterday that New Orleans had been destroyed by a tidal wave was greatly exaggerated. Very little damage was done the great Southern city by wind and water.

JAMES A. DUDDERAR, of Lincoln county, a young fellow that sported his first mustache the same year we did and sang out of the same hymn book for the edification of the same bright-eyed-girls we did, was in Somerset on business for the McKinney flouring mills. He is descended from a family of millers who always knew whose corn they were feeding to their own hogs. Somerset Journal.

Joe Russell, a Louisville drummer, and Ben Shreve, a merchant at Merriam, became involved in a fight and Russell was stabbed in the shoulder.
